

PCCAS
Emulsion Committee Charges
February 24, 2016

- 1)
 - a. Committee Charges and Activities - Continue to follow the work undertaken by the FHWA ETF and adapt as appropriate.

- 2)
 - a. Emulsion Correlation Testing – Establish a proficiency testing program for members.
 - i. Talk to Oregon to see if we can add members to their Co-op testing program
 - ii. Identify what types of emulsions to test
 - iii. Identify sample and testing frequency
 - b. Alternative test methods for obtaining residue –
 - i. Lengthy list provided at last meeting
 1. Consider looking at only member states processes then contact members to measure interest in working on consensus for testing across state lines.
 - ii. Monitor efforts of PPETG – ETF
 1. Review what ETF has drafted and see if they have addressed residue testing
 - c. Performance grading/testing of emulsions – Review changes proposed by the . FHWA ETF and adapt as appropriate.
 - i. Monitor efforts of PPETG - ETF
